

REMARKS

Applicants have added the serial numbers in the cross-reference to related applications section.

Claims 1-126 were rejected under 35 USC § 112, second paragraph, as allegedly being indefinite for failing to particularly point out and claim the subject matter of the invention. More specifically, several of the claims are said to use improper Markush language. Although Applicants disagree with this conclusion, the claims in question have been amended in the manner suggested in the Office Action. As this was the only rejection, it is submitted that Claims 1-126 are now in condition for a Notice of Allowance. Such action is respectfully requested at an early date.

Respectfully submitted,
